

Follow the lead

One step at a time

in the dance of life.

We follow our partner

and take their lead.

Step ahead,

get tired,

over exerted,

miss others in our path.

Step behind,

lose the exercise,

lose the path,

miss others in our path.

Hit the beat and step in time

as best you can.

Providence for all

roll with it

trust and take every opportunity.

M. Green, March '20

Note: part of the lent series, image was taken from the net, BBC. Keep in time, to create the beauty of the heavens.
